We understand managing a MOTOTRBO™ system can be overwhelming.
There is a better way...

GW3-TRBO® provides a simple solution to maximize your investment, ensure availability and optimize performance.

“Within days of implementing GW3-TRBO on our multi-site MOTOTRBO system, we were amazed at how much we were missing. The GW3-TRBO software lets us see it all!”

— MOTOTRBO Channel Partner

GW3-TRBO is a registered trademark of GenCore Candeo, Ltd.
GW3-TRBO® enables users to monitor live traffic, report on system and subscriber activity, as well as proactively manage system resources down to the subscriber level. GW3-TRBO archives every detail on system traffic and faults from every site, repeater, channel, slot, talkgroup and subscriber.

GW3-TRBO is sold and supported through Motorola Solutions.
